M., to pay the delinquent assessment, together with the cost of advertising and expenses of sale.

By order of the board of directors, E. J. ECKHART, Secy.

O19 to N20.

The Bonanza carries TWICE as much NEWS as any paper in this section. Comparison invited.

ANOTHER FIND IS ANNOUNCED AT SILVERTON

Discoveries come so frequently in the Silverton district of late weeks that it is difficult to keep in close touch with conditions in general, but it is nevertheless a fact that a satisfactory campaign of development is being waged on Treasure Hill by the Treasure Hill Mines company. Joseph Tognoni, father of that section by reason of having been the first to prove that ore exists in paying quantities, was a visitor to Tonopah Monday, bringing with him samples of high-grade ore taken from a 10-foot vein that shows average values of 35 ounces silver a ton. Across two feet of the vein matter the values average better than 200 ounces silver, but by milling in one class the entire ore body can be made of commercial grade, providing milling facilities were made available.

The new find was made 150 feet north of the old tunnel that was started to undercut the big blow-out up the hill, but it is believed the same ledge is being exploited. Mr. Tognoni came in for the purpose of discussing the advisability of installing a compressor near the portal of the crosscut, that was advanced seven years ago for a distance of 136 feet. Within the next 50 feet the heading will undercut the blow-out, intersecting the vein at a depth of approximately 175 feet. Only two weeks ago a rich streak of high-grade silver ore was encountered on surface in close proximity to this blow-out, and it is desired to undercut that point at depth to determine if the ore vein is persistent.

Location books in triplicate for sale at The Bonanza office.

NOTICE OF FORFEITURE

James A. Hilmyer, your heirs, executors and assigns.

You are herewith notified that the undersigned, your owner, has expended fourteen hundred (\$1400) dollars, amount of labor to be performed as labor and improvements on the Keystone group of claims as follows, viz:

The Comstock, the Monarch, the Rolling No. 1, the Rolling No. 2, the Wonder, the Mogul, the Sunnyside, the Noble Five, the Opal No. 1, the Opal No. 2, the Opal No. 3, the Pathfinder No. 1, the Pathfinder No. 2, and the Pathfinder No. 3, situated in the Hot Creek unincorporated mining district, Nye County, Nevada, and the same is recorded in the recorder's office of said county in order to hold possession right and title in and to said claims under the provisions of Section 2324 of the Revised Statutes of the United States and the amendments thereto, and supplemental legislation of the State of Nevada providing for the annual labor and improvements expense was made for the year ending July 31st, 1921.

If within ninety (90) days after this publication you, James A. Hilmyer, fail to contribute your proportionate share of amount due on 12.14 per cent, being your interest in said claims, as of record, and amounting to \$170.00 as so-aver in and to said claims, together with the cost of this advertisement, your interest in said claims will become the property of the undersigned, who has sustained the expense and improvements as above stated.

WORTH L. WISWALL, Co-owner.

DIGNITY IS THE KEYNOTE OF WINTER'S COSTUME SUITS

THE wandering and wayward airs of fashion, blowing this way and that at the beginning of the season, have set themselves in definite directions and now we are able to determine which way the wind blows. In suits it is toward long coats and somewhat lengthened skirts; coats that are made interesting by a little variety in styles and much variety in trimmings and skirts that, with few exceptions, remain plain.

The box coat, with many variations in collar, sleeves, length and trimming, appeals to great numbers of women; as it is developed this season severity is unknown to it. It has more than one rival, the most important of them being coats that decide upon a little definition of the waistline or a ripple in the skirt portion at the sides and back and those in the long redingote style. In a season of dignified suits the last stands at the head of its class.

In the handsome suit pictured the figure is vaguely outlined and the coat flares at the back below the waistline. It is uneven in length and splits up at each side. For hands form the cuffs and emphasize the flare and ripple in the back, and fur provides a collar over the long revers. Embroidery in a striking pattern assumes the responsibility of finishing the trim front.

Since fashion has deepened longer skirts without saying just how much longer they shall be, the length of this model is worth noting. It is long enough, longer than the average by an inch or so, but in keeping with the style, which is intended for matrons.

MINERAL POWER LINE SOON WILL BE COMPLETED

The 200-ton concentration and flotation plant at the Simon Silver-Lead mine in the Simon district of Mineral county will be brought into commission not later than November 15, according to P. A. Simon, president and general manager of the company, who was a visitor to Tonopah on Monday. The Mineral county power line is now between Tuning and Mina, according to Mr. Simon, and progress in repairs is resulting at the rate of two miles each day, which will result in the Simon mine and mill being hooked up with electric current not later than November 7, when ore treatment will become a reality.

Mr. Simon also made the announcement that the first unit of the smelter of the Kirk-Simon Smelting company's plant will be brought into commission about the middle of next month, and that the initial capacity will be 10 tons daily. This plant formerly was known as the Western Metals company and is located at Harbor City, near the Los Angeles harbor. The plant has been thoroughly remodeled and new furnaces installed, and will be operated exclusively on the zinc concentrate that will be realized in the treatment of ore at the Simon Silver-Lead mine. The zinc will be shipped by water to eastern and foreign markets, while the lead product will be sold under contract to the United States Smelting & Refining company at Salt Lake.

The mill will be operated on ores now blocked out on the 300 and 400 levels of the mine where a tonnage is available that will last for a long period. It was reported by Mr. Simon that during the past few days a body of high-grade silver ore had been encountered on the 400-foot level that has a width of six feet and which carries values averaging 50 ounces a ton. On the footwall of the vein a 12-inch streak of ore is showing that is worth better than

SUPREME COURT JOLTS TOWNLEY SOLAR PLEXUS

(By Associated Press)

WASHINGTON, D. C., Oct. 25.—The supreme court has refused to review the conviction under the Minnesota laws of A. C. Townley, president of the National Nonpartisan league, and Joseph Gilbert, manager of its organization department.

The indictment on which Townley and Gilbert were convicted charged that they opposed military enlistments, urged the government be not assisted in carrying on the war or in the sale of Liberty bonds, claiming the bonds were not safe investments because the "United States soon would be bankrupt."

PAYDAY IN MINES IS CAUSE GOOD CHEER

The miner, millman, office worker, and, in fact, the business man, is wearing a constant smile today. It is payday in the mines of the district and a sum estimated at about \$200,000 is being distributed to the men of brain and brawn, and a goodly portion of the amount is finding its way into various channels of trade. This is one of the largest paydays that has been witnessed in Tonopah in a long period, due primarily to the expansion of the mining industry.

Conditions in a general way are now practically normal throughout the district. Most of the men are gradually extricating themselves from their financial difficulties that resulted from the strike inaugurated on April 16 last, which lasted for four months, and a feeling of optimism prevails in all quarters.

It never rains but it pours!

IT WAS "company night." BUT WHEN I got home, I FOUND the Browns, HAD A sick baby AND COULDN'T come. SO I chortled "Oh, joy, WON'T SUE and I have. SWELL EATS for two!" BUT NO, Sue said, "YOU DON'T suppose, I'D WASTE all this food. JUST ON you!" AND SO I said "LET'S PHONE the Smiths." BUT THEY had headaches. THEN WE tried the Joneses, AND THEY fell for it. AND WHEN grub for four, WAS JUST about ready, THE PHONE bell tinkled AND THE Brown baby was better. AND A minute later, THE SMITHS changed their mind, AND THE Joneses fainted. "OH, WELL," I said, "THE MORE the merrier, WHAT'S THE difference? IF THERE isn't enough food, I'LL FEED the males. ON THE cigarettes that satisfy, AND YOU women can talk AND BETWEEN the two, WE'LL ALL be Satisfied."

WONDERFUL company, Chesterfields—any time, anywhere. Just seem to "hit the spot." Good tobacco, good blending, (by a private formula that can't be copied), good-looking package with an air-tight wrapper. On every count, an all-around downright good smoke. "Satisfy"? All over the place.

Make Them All "Banner" Bake Days!

Don't have success with your baking today and failure tomorrow. Have perfect economical results every time you bake—you can do it if you use

CALUMET BAKING POWDER

If it were not pure—most dependable—most economical, it would not be the world's biggest selling brand today.

No human hands ever touch Calumet—it is made in the largest and most sanitary baking powder factories on earth.

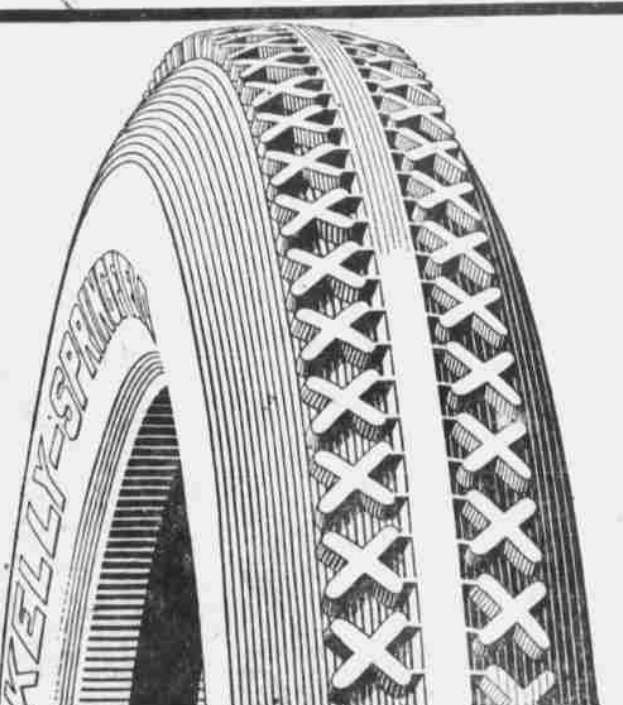

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.
